

Dear ORCSD Parents:

The District Technology Committee is currently rewriting the three year district technology plan and would like to collect information about your child's education and your ideas about how our school is preparing your child for their future. We are also interested in how you and your child use technology for learning and communicating. **Your opinions matter!** The Speak Up data annually influences decisions on school policy and planning around the country and will influence local technology planning.

The survey consists of a series of multiple choices questions plus an open-ended type question at the end where you can write in your response. The survey should only take you about 20 minutes to complete.

Please contribute to this valuable effort. Click here to take the survey. <http://www.speakup4schools.org/speakup2009/> Our secret word is 03824. If you have any trouble, please email Danielle Bolduc at dbolduc@orcscsd.org

Thanks!

Danielle Bolduc
Director of Instruction
