To the School Committee
Oyster River Cooperative School District

In planning and performing our audit of the basic financial statements of the Oyster River Cooperative School District as of and for the year ended June 30, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered the Oyster River Cooperative School District’s internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

During our audit we became aware of other matters that we believe represent opportunities for strengthening internal controls and operating efficiency. The recommendations that accompany this letter summarize our comments and suggestions concerning those matters.

This communication is intended solely for the information and use of management, School Committee, others within the organization, and is not intended to be, and should not be, used by anyone other than these specified parties.

PRIOR YEAR RECOMMENDATIONS:

1. Establish Disaster Recovery Plan

Prior Year Issue:
In the prior year, we noted that the District did not have a formal business recovery plan for its computer system. We recommended that a formal disaster recovery plan be established, documented, and tested to include the following issues:

- Identify and prioritize key automation functions within the District.
- Identify key contacts (vendors, alternate site).
- Document manual and alternative procedures that may be required to temporarily process transactions.
- Identify key personnel in the recovery process and specify their roles.

Establishing and testing a formal business recovery plan will lessen the risks associated with a major computer failure or other disaster.

Current Year Status:
This issue was not resolved in fiscal 2014, however, we understand a draft of a disaster recovery plan was created, but not yet adopted.

Further Action Needed:
We continue to recommend the District finalize and adopt a disaster recovery plan.

2. Review Payroll Clerk Responsibilities Surrounding New Employees in the Payroll System

Prior Year Issue:
In the prior year, we recommended that the District review the responsibilities of the payroll clerk and consider segregating certain duties, and/or implement a formal/documentated review process.

Current Year Status:
We understand that during fiscal 2014 the District evaluated various alternative controls to compensate for potential segregation of duties concerns for the payroll clerk position, however, the payroll clerk still has ability to establish new employees in the payroll system.

Further Action Needed:
We recommend the District remove the ability for the payroll clerk to establish new employees in the payroll system. This will improve the segregation of duties and controls over the payroll process.
CURRENT YEAR RECOMMENDATION:

3. Prepare to Implement GASB 68

Beginning in fiscal year 2015, the District is required to implement the Governmental Accounting Standards Board (GASB) Statement 68 – Accounting and Financial Reporting for Pensions that will require the unfunded pension liability be recognized on the District’s Statement of Net Position. It is widely expected that the implementation of this accounting standard will have a material impact on the District’s basic financial statements.

We recommend the District begin planning for the implementation of GASB 68, which includes gaining an understanding of the new requirements and educating applicable financial statement users. We will be monitoring best practices for implementing this standard across the state and will provide guidance in the coming year.
EVALUATION OF THE BOARD

At the conclusion of each year, the board shall reflect on the degree to which its goals and objectives have been accomplished. The board shall address those areas as outlined in state laws and ORCSD established Board goals.

Appendix BAA-R – Researching for form to use

Current ORCSD Kindergarten

- Strong tradition of valuing and supporting developmentally-appropriate, quality educational program.
- Evolved to meet the changing needs of young learners and the expanding curriculum in early childhood education.
- Currently ORCSD has 7 half-day sessions (average class size 16-18)
Why Study Full Day Kindergarten?

- Scheduling challenges too constrained in half day (program is 2 hours, 35 minutes)
- Early intervention: social, emotional, physical, and academic is critical to success throughout K-12
- Common Core State Standards/21st century learning place additional expectations on kindergarten
- Provide less transitions for children in need of full day programing

Full Day Kindergarten is a Growing Trend

- Per NHDOE, 87+ NH districts have full day kindergarten (59 districts five years ago)
- 76% of students in US attend full day kindergarten (Education Week, September 17, 2014)
- NH RSA 193,1 – any student who is 6 years of age by September 30th of a given school year must attend a full day program. (Red shirt)
Potential Challenges/Discussion Points

- Cost (e.g. teachers, unified arts, materials, support staff)
- Some parents may want not want their child to participate in a full day
- Impact on master schedule for lunch/recess, unified arts (Adjustments required but manageable)
- Kindergarten is not mandatory in NH; compulsory education in NH begins at age 6 (Change in 'red shirting' option)

Determine Space Availability and Enrollment

- The LRPC projected enrollment for 1st grade is 130 (2016-17) 104 (2017-18) and beyond. We used 1st grade projected enrollment
- Mast Way has space to accommodate 4 full time kindergarten classrooms; 2 currently & 2 additional
- Moharimet has space to accommodate 2 full time classrooms currently and 1 additional in 2016-2017.
**District Wide Implementation**

**GOAL: District Wide Implementation of Full Day Kindergarten**

LRPC 1st grade projected enrollment for each year was used. We believe it more accurately represents what kindergarten would be if ORCSD offered full day kindergarten.

Area Towns with Full Day Programs

- 87+ districts with full day kindergarten for all students, fully funded by district
- Many area towns/districts currently provide full day programs (e.g. Barrington, Dover, Exeter, Hampton, Newington, North Hampton, Portsmouth, Rochester, Rye
- Many more districts hope to implement in 2015-16 (e.g. Berlin, Inter-Lakes, Newmarket)
Benefits to Students

- Relaxed, unhurried school day with more time for a variety of experiences
- Enhanced opportunities for authentic practice of academic and social skills
- More individual and small group instruction to meet differentiated needs, including extending or modifying the curriculum
- Enhanced opportunities to build content foundations in science, social studies and integrated arts
- Greater opportunity for all students to meet grade level learning targets across developmental domains
- Fewer transitions during the day
- Enhanced home-school communication

Benefits to Teachers

- Curriculum implemented throughout a full-day, resulting in more in-depth instruction at a more relaxed pace.
- Full implementation of Kindergarten curriculum programs.
- Increase teacher time for greater opportunities for individual and small group instruction to meet student needs; stronger home-school partnerships (i.e. more time for each family.)
- More flexibility to schedule intervention (academic, related service) to foster reaching grade level standards.
- More time to assess learning to monitor student progress, leading to enhanced differentiation by student needs and interests.
- Increased opportunities for social skills and language development with peers, including structured and unstructured play.
- More opportunities for both guided and independent practice of skills.
Benefits to Parents

- Equal access to a safe, developmentally-appropriate learning environment staffed with certified professionals.
- Consistent, uninterrupted schedule for children and parents each day.
- Reduced stress for children and families due to a more comprehensive curriculum delivered at a more relaxed pace.
- Increased opportunities for enhanced parent – school – community partnerships.

Benefits to Community

- ORCSD's appeal for families is often its schools. Families are invested in maintaining high standards and excellence in the quality of programming provided.
- Neighboring communities are implementing full-day kindergarten. Providing full-day kindergarten may make ORCSD attractive to prospective homebuyers.
- Research consistently supports that investing in high quality early childhood programs and interventions 'pays dividends' in later years; possible reduced need for interventions in later years (which are more costly).
- Students/families begin their schooling with common social and academic experiences.
Committee Recommendation

Full-day kindergarten is a necessary and important educational opportunity for the children of Oyster River.

The committee supports implementing universal full-day kindergarten for all students in the 2016-17 school year.

Examine Research About Effectiveness of Full-Day K

- Teachers and parents indicate that they prefer an all-day program because it also provides children more time for creative activities and development of individual interests within a more relaxed atmosphere.
  
  [Link](http://www.proschoolcharters.org/resources/research_summaries/ks_fkw.pdf)

- Full-day kindergartens exhibit more independent learning, classroom involvement, productivity in work with peers and reflectiveness than half-day kindergartens.
  
  
  [Link](http://www.proschoolcharters.org/resources/research_summaries/ks_fkw.pdf)

- Children in full-day kindergarten classrooms spend more time in self-initiated activities and teacher-directed individual work and less time in large group instruction.
  
  [Link](http://www.proschoolcharters.org/resources/research_summaries/ks_fkw.pdf)

- Full-day kindergarten allows a more consistent schedule for children and reduces the ratio of transition time to class time, reducing stress for children.

Examine Research About Effectiveness of Full-Day K cont'd

- Research clearly indicates that full-day Kindergarten is highly successful at significantly reducing disparities in academic readiness as children enter the crucial two years of Grades 1 and 2. (The Milton Board of Education, Extended Kindergarten Feasibility Study) [http://www.publicschoolsrevier.com/articles/90]

- In a longitudinal study of students from K through Grade 8, students in full-day kindergarten performed better on every category of The Comprehensive Test of Basic Skills in Grades 3, 5 and 7. (Evansville-Vanderburg [Indiana] School Corporation (1988): Kindergarten Study; Full Day vs. Half Day) [http://www.crdl.net/review/research-accountability-research-school-improvement/division/full-day-kindergarten-a-review-of-literature.pdf]

- Full-day kindergarten students earned higher GPAs than their half-day kindergarten peers in Grades 6-8.
