SCHOOL BOARD MEMBER AUTHORITY

The authority of individual Oyster River Cooperative School Board members is limited to participating in actions taken by the School Board as a whole when legally in session. School Board members shall not assume responsibilities of administrators or other staff members. The School Board or staff shall not be bound in any way by any action taken or statement made by any individual School Board member or group of School Board members except when such statement or action is pursuant to specific instructions and official action taken by the School Board consistent with policies BDB and BDF.

Delegation

A Board member may be delegated authority by the Board to take action outside a proper Board meeting only as one of the following: 1) an officer of the Board, 2) a member of a Board subcommittee, 3) a member of an advisory committee. 4) a Board Liaison to another committee or organization, or 5) for a specific task. Except for officers, all other delegations shall be appointed by the Chairperson of the Board and approved by proper vote of the Board.

Subcommittees:

The Board may form subcommittees from its own membership to facilitate the work of the Board. Subcommittees may be standing committees that serve continuously for a specific topic, or they may be special or ad hoc committees that serve for a specific task and are then dissolved. Such subcommittees will be comprised of up to three Board members. All Board subcommittees are subservient to the Board as a whole and only have study and review functions as assigned to them by proper motion of the Board. Subcommittees will report their findings and recommendations to the full Board which will take action as a whole. The Board retains the right to dissolve a subcommittee at any time.

All Board subcommittees are themselves public bodies under the Right-to-Know law and must comply fully with that law and all related policies equally as the Board itself.

Liaison

Board members may occasionally serve as Board liaison to other committees or organizations for the purpose of reciprocal communication and reporting back to the Board. No more than two Board members may be delegated as liaison to the same committee or organization. Public access to the meetings and records of such committees or organizations is determined by how the Right-to-Know law applies to that committee or organization. Communications and reports involving the liaison with the Board shall be consistent with the Right-to-Know law and all related policies.

Specific Task

An individual Board member may occasionally be delegated by the Board to perform a specific task. The motion to delegate a task to a Board member must include detailed instructions and be for a specific and limited time so that administrators, staff, other Board members and the public are fully aware of when a Board member is performing a task. If an original timeline is not met no new
motion will be required but the Board member so tasked must keep the Board informed. All communications or actions related to the delegated task involving any other Board member must be at a proper Board meeting. A delegated task must not be used to circumvent the spirit of the Right-to-Know law.

This policy affects public access to the Board and the public's Right to Know. To protect that right, this policy requires a public hearing before it may be revised. Further, this policy may not be suspended except by a two-thirds vote at a public meeting. The Board must always fully comply with the letter and spirit of the Right-to-Know law that may not be suspended. This policy will be reviewed by the Board and all standing advisory committees annually before the end of April to ensure full awareness and compliance.

ADVISORY COMMITTEES TO THE BOARD

The Oyster River Cooperative School Board may rely on advisory committees to counsel it as a means of discerning the needs and desires of the School District and its residents. The central purpose of all advisory committees is to contribute to the educational program by conducting studies, identifying problems, and developing recommendations that enhance the effectiveness of the decision-making process.

Any advisory committee shall have only those duties and powers as the Board determines. The ultimate authority to make decisions will continue to reside with the Board. No advisory committee’s recommendations shall have any limiting effect on appropriations, unless all the procedures of RSA 32 have been followed.

Specific topics for study or activity shall be assigned in writing to each committee. Upon completing its assignment, each committee shall either be given new problems or be dissolved. Advisory committees shall not be allowed to continue for prolonged periods without a definite assignment. Each committee shall be instructed as to the length of time each member is being asked to serve, the service the Board wishes it to render, the resources the Board intends to provide, the approximate dates on which the Board wishes it to submit reports, and the approximate date on which the Board wishes to dissolve the committee. The committee shall be instructed as to the relationship it has to the Board, to individual Board members, to the Board member(s) assigned to provide liaison, to the public, to the Superintendent, the committee assistant, and the remainder of the professional staff.

The Board shall have sole power to dissolve any of its advisory committees and shall reserve the right to exercise this power at any time during the life of any committee.

The Board may seek the advice of the Superintendent before establishing or dissolving any advisory committee.

The Board shall make all appointments of citizens to advisory committees. The Superintendent shall make all appointments of staff members to citizens advisory committees after approval of the Board.

The School Board shall see that the public is made aware of the services rendered by such committees of citizens as it may appoint and shall see that the public is informed of the major conclusions and recommendations made by such committees. All public announcements concerning the organization, membership, operation, recommendations and dissolution of such committees shall be made at such time and in such manner as the Board may choose.

Policy Committee Meeting Minutes
Wednesday, April 8, 2015 @ 3:30 PM

Attendees: Maria Barth, Kenny Rotner, Denise Day, Wendy DiFruscio, James Morse

Visitors: 0

Called to order at 3:40 by Jim Morse and he explained that since their will not be a chair for this committee until a “Charge” is developed he asked if it was okay for him to run this meeting.

Jim asked for input as to what the charge should be and as a group developed the following:

“To continuously review and update all policies.
To insure all Federal and state mandated policies are in place and current.
To bring all policies reviewed before the School Board for consideration.”

This charge will be brought before the School Board for approval.

Policy IHAE – Physical Education – Policy was reviewed as is and determined that this is fine and is now ready for first read by the School Board.

Policy IIAMA – Teaching about Alcohol, Drugs and Tobacco. The District policy and the NHSBA version were reviewed, compared and discussed. It was determined that the existing policy will be retained with changes to the title and minor word changes to the content. Removal of the list of objectives to be added to an “R” document that will also include the Youth Risk Behavior Survey information that Jim will create in conjunction with Todd and Jay’s input and invitation to School Board members to attend related functions. This revised policy is ready for first read.

Policy IIB – Class Size was pulled until the end of the meeting.

Policy JIHD – Student Interviews and Interrogation – This NHSBA policy was reviewed and compared to the original JIH policy pertaining to Student Searches prior to its total revision. The opening sentence will be extracted along with the wording in #3 and the last sentence of #4 and added to the NHSBA version. Cross reference of JIH, JIHB and JICI will be added. This policy is ready for first read.

Policy JICI – Weapons on School Property – This policy was reviewed in conjunction with the NHSBA version. Decision made to keep the District policy, but addition of “look-alikes” added. Discussion ensued that an “R” document be created, possibly using the actual law as the procedure. This policy is ready for first read.

Policy ILBAA – High School Graduation Competencies. This policy has been in review and revision for several meetings. ORHS Principal Todd Allen provided his changes and suggestions for revision. The policy committee reviewed these changes and approved the submission for first read by the School Board.

Policy IIB – Class Size – Discussion ensued. Questions asked pertaining to small class sizes, resulting in the language change to the last sentence and creation of an “R” document. Using the presentation provided on this topic by Todd Allen as a basis. Ready for first read.

Meeting ended at 5:10 PM – Next meeting to be May 13, 2015.

Respectfully submitted,
Wendy L. DiFruscio
PHYSICAL EDUCATION

Physical education shall be required of all Oyster River Cooperative School pupils on a regularly scheduled basis. No child shall be excused from physical education except on the advice of a registered physician of the state. Temporary excuses on a day-to-day basis may be granted by the teacher upon the request of the parents.
TEACHING ABOUT ALCOHOL, DRUGS, AND TOBACCO, AND OTHER ABUSE SUBSTANCES

Drug abuse includes any physical or mental state resulting from the use of a drug for any purpose other than its medically prescribed use, and that this mental and/or physical effect precludes realization of the educational potential of the individual. The objectives of the drug education curriculum are rooted in the Oyster River Cooperative School Board's belief that prevention requires education and that the most important aspect of the policies and guidelines of the district should be the education of each student to the dangers consequences of drug use and abused substances. The superintendent shall be responsible to establish and periodically review the district's guidelines for staff members, in conducting drug education and dealing with drug abuse.

Objectives of drug education curriculum:

1. To create an awareness of the total drug problem — prevention, education, treatment, rehabilitation, and law enforcement on local, state, national, and international levels.

2. To inform the students of the effects on the body of narcotics, sedatives, hallucinogens, and stimulants.

3. To relate the use of drugs and alcohol to physical, mental, social, and emotional practices.

4. To encourage the individual to adopt an appropriate attitude toward pain, stress, and discomfort.

5. To develop the student's ability to make intelligent choices based on facts and to develop the courage to stand by one's own convictions.

6. To understand the need for seeking professional advice in dealing with problems related to physical and mental health.

7. To understand the personal, social, and economic problems causing the misuse of drugs and alcohol.

8. To develop an interest in preventing illegal use of drugs in the community.
STUDENT INTERVIEWS AND INTERROGATIONS

It is the policy of the Oyster River Cooperative School District to cooperate with law enforcement agencies.

Interviews by School Administrators

When a violation of Board policy or school rules occurs, the school principal or designee may question potential student victims and witnesses without prior consent of the parent, guardian, or legal custodian. If a school official is investigating a report of child abuse regarding the student and the suspected perpetrator is a member of the student’s family, no contact with the student’s family will be made.

Interrogations by School Administrators

In situations where a student is suspected of violating Board policies or school rules, the principal or designee may interrogate the suspected student if the school official has reasonable grounds to suspect that such a violation has occurred. The nature and extent of the questioning must be reasonably related to the objectives of the questioning. If the student denies any involvement or culpability, the student will have the opportunity to present his or her side of the story, orally or in writing to the proper school administrator.

Interviews and Interrogations by Law Enforcement Officers

Law enforcement officers may wish to interview students regarding their knowledge of suspected criminal activity and may wish to interrogate students who are themselves suspected of engaging in criminal activity. Except when law enforcement officers have a warrant or other court order, or when an emergency or other exigent circumstances exist, such interviews and interrogations are discouraged during the students’ class time. The principal and principal’s designee have the right and the obligation to take reasonable steps to prevent disruption of school operations and the educational process, while at the same time cooperating with law enforcement efforts. Accordingly, the principal or designee shall work together with law enforcement officers to coordinate efforts and minimize or prevent such disruption in cases of student interviews and interrogations. In the event of disagreement, the principal or designee shall immediately contact the Superintendent or district legal counsel for assistance.

Privacy: Except in an emergency or other circumstances justifying other action, the student should be summoned to the school administration office so that the law enforcement contact or arrest does not occur in the presence of the other students. The entire matter should be handled in a manner calculated to minimize embarrassment of the student and the need to provide confidentiality for the “minor” student.

It is the responsibility of the law enforcement officer to meet any legal requirements from a law enforcement perspective relating to advising a student of constitutional or statutory rights.

WEAPONS ON SCHOOL PROPERTY

Weapons are not permitted on Oyster River Cooperative School District property, in school vehicles or at school-sponsored activities. This policy applies to students, staff and members of the public alike. Student violations of this policy will result in both school disciplinary action and notification of local law enforcement authorities. Members of the public who violate this policy will be reported to local law enforcement authorities.

The term “weapons” includes, but is not limited to, firearms (rifles, pistols, revolvers, pellet guns, BB guns, or look-alikes, etc.) knives, slingshots, metallic knuckles, firecrackers, billy-clubs, stilettos, switchblade knives, swords, canes, pistol canes, black jacks, daggers, dirk knives, explosives, incendiaries, martial arts weapons or self-defense weapons (as defined by RSA 159:24 and RSA 159:20 respectively), or any other object or substance which, in the manner it is used or threatened to be used, is known to be capable of producing death or bodily injury.

In addition, any student who is determined to have brought brings a firearm (as defined by 18 U.S.C. §921) to school will be expelled for not less than one year (365 days). This expulsion may be modified by the Superintendent upon review of the specific case in accordance with other applicable law.

Pursuant to the provisions of 20 U.S.C. § 7151, Gun-Free Schools Act, the Board requires the Superintendent to contact local law enforcement authorities and/or the Division of Children and Youth Services and notify them of any student who brings a firearm or weapon on school property.

Weapons under control of law enforcement personnel are permitted.

All students will receive written notice of this policy at least once each year.

HIGH SCHOOL GRADUATION COMPETENCIES

The following definitions are established for the purposes of assessment of Oyster River High School course work through the demonstration of student mastery of course competencies:

1. “Competencies” means student learning targets that represent key content-specific concepts, skills, and knowledge applied within or across content domains. Specific and required types of competencies include course level competencies, district competencies and graduation competencies.

2. “District competencies” mean specific types of competencies that are common across the district and organized in developmental progressions that lead to achievement of graduation competencies.

3. “Graduation competencies” means specific types of competencies that are common across the district and define learning expectations for each student for graduation from high school.

4. “Mastery” means a high level of demonstrated proficiency with regard to a competency.

Course credit will be awarded through the demonstration of a student’s mastery of the competencies of the course. Course credit granted through demonstration of mastery will be recorded on the official student transcript, counted through traditional methods. Grades and credit granted through demonstration of mastery will be included in the student’s grade point average. Students must be enrolled in the particular course in order to receive course credit.

Students who are involved in an approved extended learning opportunity to satisfy course requirements in whole or in part shall demonstrate mastery through a method or methods as approved by the course instructor, as specified in Policy IHBH.

Credit may be used to fulfill prerequisites for other courses and/or subject area credit requirements for graduation. Credit will not be granted, however, for a course in a subject area lower in course sequence than one for which the student has already earned credit.

The Superintendent shall establish rules for implementing this policy in cooperation with the high school Principal, and shall be responsible for ensuring that all high school courses include appropriate competency assessments. Competency Assessments will be selected, conducted, and reviewed in conjunction with the provisions of Policy ILBA.

Assessments shall be aligned with clearly defined educational standards that specify what students should know and be able to do. The assessment items and tasks shall be valid and appropriate representations of the standards students are expected to achieve. Assessment standards, tasks, procedures, and uses shall be fair to all students.

CLASS SIZE

The Oyster River Cooperative School District will adhere to all state laws and regulations pertaining to class size. In the event of scheduling conflicts, staffing shortages, space limitations, fiscal limitations, or other issues that prevent a classroom from adhering class size regulations, the Superintendent or designee will contact the New Hampshire Department of Education and seek alternative compliance allowances through the applicable State procedures.

CLASS SIZE GUIDELINE

In an effort to provide the best possible education for all students in the Oyster River Cooperative School District it is the goal of the Oyster River Cooperative School Board to support the following guidelines related to class size.

- Kindergarten: Not to exceed 18 students
- Grades 1, 2 and 3: Not to exceed 20 students
- Grades 4 and 5: Not to exceed 22 students
- Grades 6, 7 and 8: Teams of not more than 90 students per 4 person team
- Grades 9 through 12: In general not to exceed 22 students with the exception of those classes that may be above or below 22 students depending upon curriculum, activities, space limitations or for safety reasons. The Principal will be responsible for making these decisions.

Because resources (both space and staff) are limited it is understood that these are goals and not absolute limits and will not exceed state minimum standards guidelines.

Classes below 12 will be brought to the attention of the Superintendent for review and approval.
